PICO®

Performance™

Performance™ CABLE TIES

A true all weather cable tie. Seven times more UV resistant than the standard tie. Enhanced flexibility and strength in extreme heat and extreme cold weather or low humidity applications. Increased UV protection material rated at -40°C (-40°F) per ISO180. Tested for application performance at -20°C (-4°F). Made with a special additive that prevents drying and breaking in cold, low humidity conditions.

The very best Cable Ties we offer!

Part No.	Qty.	Description	Bundle	Tensile
7295-36	100 PCS	7.5" UV Black	1.875"	50 lb.
7296-36	100 PCS	11" UV Black	3.062"	50 lb.
7297-36	100 PCS	14" UV Black	4"	50 lb.
7298-36	100 PCS	14" UV Black	4.06"	120 lb.
7299-35	50 PCS	24" UV Black	7.2"	175 lb.

- Designed for the toughest conditions!
- Special additive to stop cold weather breakage
- UV resistant

caméléon

The Caméléon ratchet crimp tool body consists of a sturdy carbon steel frame, adjustable compression wheel and rubberized handles for a comfortable grip. The crimper eliminates the problem of over and under crimping connectors. The ratchet action and quickrelease ensures that crimps are secure and uniform. The built-in safety release allows the tool to release mid crimp if required. The consistent and replicable pressure make this the ideal tool for approved connectors.

401-31 8.7" Ratchet Crimp Tool Body

403-31 10" Ratchet Crimp Tool Body

The Caméléon crimper adapts perfectly with any PICO Caméléon dies. The easy change technology allows the dies to be changed rapidly without the need of any other tool.

410-91 8.7" Caméléon Kit

The 410-91 comes with the 8.7" Caméléon tool body, the 450-11 wire stripper and three of our most popular dies,

- A (10-22 AWG) for insulated connectors
- A1 (8-22 AWG) for heat shrink connectors
- B (8-20 AWG) for non insulated connectors

or you can build your own customized kit with three dies of your choice.

412-91 10" Caméléon Kit

The 412-91 comes with the 10" Caméléon tool body, the 450-11 wire stripper and three of our most popular dies,

- A1 (8-22 AWG) for heat shrink connectors
- B (8-20 AWG) for non insulated connectors
- B1 (4-6 AWG) for non insulated connectors

or you can build your own customized kit with three dies of your choice.
